# HIGH ACOUSTIC RATING

# RECYCLABLE & SUSTAINABLE

## Acoustic Material: Crafted To Perfection

Pods adopt 100 percent polyester, non-poisonous, harmless, non-irritant, and odourless acoustic material which offers excellent sound absorption. Most importantly, the acoustic materials are harmless to the environment because they can be recycled and reused.

The sound absorption alongside the quality, recyclability and reusability of the acoustic material have also been tested by the relevant testing boards. Our pods aim to put sustainability and societal impact at the heart of all its endeavours.

STANDARD 100

## Prioritising “Green” Manufacturing Materials

We strive to create green, resilient and competitive products. Taking the manufacturing materials of SOLO POD 2.0 as an example, galvanized steel makes up 78 percent of the materials used. This can reduce the environmental burden to the planet earth and is in line with the ideal of sustainable development.

# PEACE WITH SOUND INSULATION

## We Care For Your Well-Being

In an environment with sound level is above 70 dB, you will soon find yourself difficult to remain focused and productive at work.

GO 2.0 pods have gone through rigorous test based on ISO 23351-1 standards, with the speech level reduction at 28.3 dB. It creates a serene and relaxing environment that counters the stress and anxiety of our daily grinds. GO 2.0 not only provides more opportunities for creative collaboration, but also helps to maximize users' concentration and satisfaction, as well as enjoy the quiet moment.

Aside from sound insulation, GO 2.0 has achieved GREENGUARD Certification which is scientifically proven to meet some of the world's most rigorous third-party chemical emissions standards, helping to reduce indoor air pollution and the risk of chemical exposure. The certification can contribute to LEED credits as well.

# COMFORTABLE AND BREATHABLE

# CLEAN AIR\* IN 2.0 PODS

GO 2.0 pods utilizes a top-notch air ventilation and air purifying technology to provide consumers a pleasant breathing environment.

The air ventilation system enables a high enough air exchange rate within the pod to provide a comfortable and healthy working environment.

Additionally, the included HEPA filter captures airborne particles to cleanse entering air and enhance air quality. It inadvertently lessens allergic responses.

The filtered air was tested based on ISO 14644-1:2015 standard.

Model	Airflow (m <sup>3</sup> /h)	Air Change Per Hour (ACH)
SOLO 2.0	131	81
FOCUS 2.0	131	37
CONNECT 2.0	262	59
RETREAT 2.0	393	43
